

DEDICATE MONUMENT TO FEDERAL DEAD

Governor Guild and Scene in Winchester, Va., September 4.
(Special to The Times-Dispatch.)
Great interest is felt here in the approaching visit of Governor Curtis Guild, of Massachusetts, who arrived Monday, September 16th.
The purpose of the visit of the Massachusetts Governor and soldiers will be the dedication of the monument to be erected in the National Cemetery to the Massachusetts soldiers who are buried in that historic spot. The Legislature of the Bay State provided for the erection of this monument with a liberal appropriation, and Mr. T. J. Grand, of Winchester, has been commissioned to put into place the base and pedestal. He is now engaged in this work.

The monument will consist of a large granite statue of a soldier on a pedestal of granite, on the sides of which will be appropriate inscriptions on bronze tablets; the pedestal will rest on a large granite base. The monument will be erected in that part of the National Cemetery where the Massachusetts dead are buried.
While no authoritative statement has been given out as to whether the veterans of Turner Ashby Camp will entertain the Massachusetts visitors during their brief stay in Winchester, it is likely that some sort of reception, or other form of entertainment, will be arranged in their honor by the survivors of the army that wore the gray.
Governor Guild and his party will leave Boston at 6 P. M. on September 14th on a special train, arriving in New York by the Fall River line on Sunday, September 16th; leave New York at 8:12 A. M. and reach Washington at 1:15 P. M.; leave Washington via Baltimore and Ohio in special train at 9 A. M. and arrive in Winchester at 11:30 A. M.
Upon arrival here the visitors will partake of luncheon, after which the dedicatory ceremonies will take place. Returning, the visitors will leave Winchester at 5:55 in a special, and will spend the night at Harper's Ferry, leaving that point early the following morning and making stops at Hagerstown, Blue Mountain, Pen Mar and Gettysburg. Boston will be reached on the morning of Thursday, September 19th.

Robert Harrison, on Washington Street.
The striking Greek and Italian laborers working on the streets here under Contractor Murphy, returned to work to-day at regular pay of \$1.50 to \$1.75 per day. The probability is that if they had held out longer in their strike, their places would have been filled by home laborers.
Miss Lillian M. Land, until recently of Danville, was married last night to Mr. J. A. Pasquel, Rev. Father O'Farrell officiating. The couple expect to reside in Charlottesville.
A large delegation of Petersburg Eagles will leave to-morrow morning for Norfolk and the Jamestown Exposition.
T. Sewell is conducting revival meetings at Ivey Memorial Church, near Swift Creek, and is preaching nightly to large congregations.
Melvin Mahood, a seven-year-old colored boy, was accidentally run over to-day by a horse and buggy driven by a young white man and a bone in one of his legs was broken.

MAY YET REFUND ROADWAY TAXES

Question Comes Again Before Petersburg Council, and Charter May Be Changed.

CAPTURE ALLEGED ROBBERS

Man and Woman, Charged With Holding Up Gitman, Now Under Arrest.

[Special to The Times-Dispatch.]
PETERSBURG, VA., September 4.—The question of refunding to property owners assessments paid by them to the city for roadway improvements subsequent to December 31, 1906, and to cancel all unpaid claims for like work since that date is likely to come up in new form. While many members of the Common Council personally favored the refunding and cancellation of these assessments, yet under an opinion of the City Attorney, that such could not legally be done, the Council some time ago voted down the proposition. Last evening the Council adopted a resolution calling on the City Attorney for a written opinion, to be furnished by October 1st, as to whether the city's charter can be changed by the Legislature so that this roadway tax can be refunded and released; and whether, by special or general act of the Legislature, the city can legally refund and release these taxes.

Arrest Highway Robbers.
Two negroes—William Ward and Anna Ward—claiming to be husband and wife, were arrested here to-day, charged with robbery on the highway. Late on Monday night, between Petersburg and Port Waltham, in Chesterfield, they held up Mr. J. T. Gitman, a citizen of that county, and robbed him of \$5. Mr. Gitman yielded when a pistol was thrust in his face by the man and his life was threatened. The man and woman are rough looking characters from Washington, and have for some time been tramping through the country, living on the people by fair means or foul. They will be turned over to the Chesterfield authorities for trial.

Condition Improved.
General Stith Bolling, who was severely injured in a runaway accident near Centralia yesterday, is resting quietly and comfortably at the hospital to-day, where many of his friends have called to see or inquire about him. Though he has a broken arm and a bruised knee, his most serious and painful injuries are about the head. Commissioner of Revenue Hugh R. Smith is doing well at his home. His injuries are comparatively slight.
Messrs. J. E. Whitehouse and Homer Atkinson, who were in the same wagon, were thrown out, but escaped unhurt. Mr. Whitehouse, when thrown, turned a somersault and landed on his feet. It was his first somersault since boyhood.

S.S.S. PURIFIES THE BLOOD

Bad blood is responsible for most of the ailments of mankind. When from any cause this vital fluid becomes infected with impurities, humors or poisons, disease in some form is sure to follow. Eczema, Acne, Tetter, Boils, Pimples, etc., while they show on the skin, have an underlying cause which is far deeper—an impure, humor-infected blood supply, and until this is corrected, and the blood purified, the distressing itching and burning symptoms will remain. Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Blood Poison and all other blood disorders, are the result of a vitiated, polluted circulation, and will continue to grow worse unless the poison is removed from the blood. In all blood and skin diseases S. S. S. has proved itself a perfect remedy. It goes down into the circulation and removes all waste matter, humors or poisons, and makes the blood pure and health-sustaining. Nothing reaches inherited taints and old chronic troubles like S. S. S.; it cures because it purifies the blood and restores lost properties to the impoverished circulation. Not only is S. S. S. a blood purifier of the highest order, but a tonic and appetizer without an equal. Book on the blood and any medical advice desired sent free to all who write.
